**Notice of Third Addendum to the
LOCALIZED HEALTH IMPACTS REPORT
for
Selected Projects Awarded Funding Through the
Alternative and Renewable Fuel and Vehicle Technology
Program Under Solicitation PON-13-607
Publication CEC-600-2014-007-AD3**

The Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The *Localized Health Impacts Report for Selected Hydrogen Refueling Infrastructure Projects awarded Funding Through the Alternative and Renewable Fuel and Vehicle Technology Program under Solicitation PON-13-607* was posted June 19, 2014, and the 30-day public comment period ended July 19, 2014. Two addendums to this report were posted on October 2, 2014 and December 31, 2014.

The Energy Commission has published a third addendum to the original Localized Health Impacts Report that analyzes a new location and community impacts of a project proposed for funding under the Program. Air Liquide Industrial US LP project “*Palo Alto Hydrogen Refueling Station*” has changed location of the project from 2200 El Camino Real, Palo Alto, California 94306 to 3601 El Camino Real, Palo Alto, California 94306. The addendum was publicly available on February 4, 2015.

The addendum to the report includes staff application of the Environmental Justice Screening Method (EJSM) to identify projects located in areas with social vulnerability indicators and the greatest exposure to air pollution and associated health risks.

This report is available on the Energy Commission’s website at <http://www.energy.ca.gov/altfuels/documents/index.html>.
